

RANDY M. GOODLOE, AIA, APAC
A Professional Architectural Corporation

To Whom It May Concern

RE: Ribbeck Construction Corp.

It is my pleasure to write this letter of recommendation on behalf of Ribbeck Construction Corp.

Through the years of my architectural practice we have had the opportunity and privilege to work with Ribbeck Construction Corp. on various projects which varied in scope and complexity. They are true professionals who bring important construction knowledge and outstanding management skills to their projects.

We recently worked with Ribbeck Construction Corp. on a new outdoor plaza area located at a local Catholic Retreat Complex. While the project may seem simple by this title, the design was complex and involved extensive coordination between the general contractor, his subcontractors, suppliers, and of course the owner and architect.

Throughout the duration of the project, the Ribbeck team provided excellent service and oversight. Their team of administrators, project managers, and site superintendents were focused and diligent, and every aspect of the project was carefully managed to insure there was a smooth flow to the work and to minimize impact to the existing facility which remained in operation. Their team also showed a unique quality to address on-site concerns when they appeared and kept the project moving in a positive flow.

Anyone would be well served in choosing Ribbeck Construction Corp. as their general contractor for any of the upcoming projects.

Please feel free to contact me at any time if you require additional information.

Sincerely,

Randy M. Goodloe, AIA
